

CALIFORNIA STATE UNIVERSITY, NORTHRIDGE
Northridge, California 91330

To whom it may concern:

Porcelain and Fiberglass Maintenance entered a contract with California State University, Northridge Housing office to refinish the bathtubs in the student housing complex. The contract was completed on time and completely to specifications. It was a difficult job as the apartments (totaling 168) were occupied. Many tenants were known to be very happy with the result - a major accomplishment with our group. There were only two complaints from the residents and these were properly handled by Mr. Garcia and the residents (both cronic complainers) were satisfied with the resulation.

We reccommend Mr. Garcia's service and company be seriously considered when you are seeking to extend the life of your bathroom fixtures.

Sincerely,

A handwritten signature in cursive script that reads 'William F. Huntington'.

William F. Huntington
Housing Director
